Market Update

Eureka Group Holdings Limited ("EGH") announces that its 2013 earnings will be lower by more than 10% from 2012. This is related specifically to costs of applying to become an aged care service provider and costs associated with the termination of certain management contracts previously disclosed to the market. Additionally, an amount of commission income that was expected to be received in June 2013 was delayed to this financial year.

EGH remains profitable and will lodge its preliminary annual report later this week.
