#### **Quotation agreement**

- <sup>†</sup>Quotation of our additional <sup>†</sup>securities is in ASX's absolute discretion. ASX may quote the <sup>†</sup>securities on any conditions it decides.
- 2 We warrant the following to ASX.
  - The issue of the \*securities to be quoted complies with the law and is not for an illegal purpose.
  - There is no reason why those \*securities should not be granted \*quotation.
  - An offer of the \*securities for sale within 12 months after their issue will not require disclosure under section 707(3) or section 1012C(6) of the Corporations Act.

Note: An entity may need to obtain appropriate warranties from subscribers for the securities in order to be able to give this warranty

- Section 724 or section 1016E of the Corporations Act does not apply to any applications received by us in relation to any \*securities to be quoted and that no-one has any right to return any \*securities to be quoted under sections 737, 738 or 1016F of the Corporations Act at the time that we request that the \*securities be quoted.
- If we are a trust, we warrant that no person has the right to return the \*securities to be quoted under section 1019B of the Corporations Act at the time that we request that the \*securities be quoted.
- We will indemnify ASX to the fullest extent permitted by law in respect of any claim, action or expense arising from or connected with any breach of the warranties in this agreement.
- We give ASX the information and documents required by this form. If any information or document is not available now, we will give it to ASX before †quotation of the †securities begins. We acknowledge that ASX is relying on the information and documents. We warrant that they are (will be) true and complete.

### Part 2

| Rule 7.1A – Additional placement capacity for eligible entities  |                                    |  |
|--|------------------------------------|--|
| Step 1: Calculate "A", the base figure from which the placement capacity is calculated                           |                                    |  |
| "A"  |                                    |  |
| Note: number must be same as shown in Step 1 of Part 1   |                                    |  |
| Step 2: Calculate 10% of "A"   |                                    |  |
| "D"  | 0.10                               |  |
|  | Note: this value cannot be changed |  |
| Multiply "A" by 0.10   |                                    |  |
| Step 3: Calculate "E", the amount of placement capacity under rule 7.1A that has already been used               |                                    |  |
| Insert number of +equity securities issued or agreed to be issued in that 12 month period under rule 7.1A        |                                    |  |
| Notes:   |                                    |  |
| This applies to equity securities – not just ordinary securities   |                                    |  |
| Include here – if applicable – the<br>securities the subject of the Appendix<br>3B to which this form is annexed |                                    |  |
| Do not include equity securities issued  |                                    |  |
| under rule 7.1 (they must be dealt with in Part 1), or for which specific security                               |                                    |  |
| <ul><li>holder approval has been obtained</li><li>It may be useful to set out issues of</li></ul>                |                                    |  |
| securities on different dates as separate line items   |                                    |  |
| "E"  |                                    |  |

<sup>+</sup> See chapter 19 for defined terms.

| Step 4: Subtract "E" from ["A" x "D"] to calculate remaining placement capacity under rule 7.1A |  |  |
|---|--|--|
| "A" x 0.10  Note: number must be same as shown in Step 2  |  |  |
| Subtract "E"  Note: number must be same as shown in Step 3                                      |  |  |
| <i>Total</i> ["A" x 0.10] – "E"   | Note: this is the remaining placement capacity under rule 7.1A |  |
